Music Saves Me

I love the sound of music
It makes me dance
It makes my mind prance
It gives me joy
Music gives me another chance

It takes me away
When I can't get away
It saves me
When I can't save myself
It finds me when I'm lost
It makes me feel
It makes my heart soft

Music is a gift
Music is the beauty in all that is

Piano Strings

You make me feel
When I can’t feel anything
You make me dream
When all my dreams are gone
You give me life
When all I’ve done is die

Reflective Melodic Dreams

As the days fade
My dreams continue to grow
My dreams continue to procreate
The ideas never die
The ideas never evaporate

The machine never turns off
The machine never takes a break
The machine keeps going
Never getting a nay, never getting a yay
The machine has one purpose
To build, to create

Dear Music

Music,
You overtake my soul
You always make me overindulge
You know exactly what you to do me
You make me warm, you make me cold
You make my creativity flow and flow
You listen to me
And I listen to you

Sticky Keys

With nowhere to go
With no one to run to
You hold me
And just stay
In the quiet
We just stay
The most magical moments…
Are those that are still
The healing comes…
From the moments that are most tranquil
As my breath deepens
Your notes soften
The beauty of the arpeggio grabs me
The sounds wrap themselves around me
And there we are
Wrapped in one another
You hold me together

# Beauty Around Me

As my heart beats
I feel the rhythm
I feel the heat
All the sounds
All the melodies
They enrapture me
My mind goes beneath

As my heart pounds
I feel the life
I feel the life fall from under me
The warmth of your harmony
It grabs a hold of me
To let me know
There is beauty
….all around me

Lost In The Music

Dancing
1,2
1,2
1,2

In sync
We go
1,2
1,2
1,2

Waltzing around
In a dream
You phase me
I’m gone for now
1,2
1,2
1,2

Forgetful bliss
Is your sound

Monday Meditations

Every breath I take
Is a miracle

In…and…out
That's how long it takes
For it all to go away

# Creative Melody

The melody
Is a beauty
My body fills with tears
As the music plays before my ears
I cry from bliss
I always feel like you're a friend that I've missed
The memories you bring
The emotion you bring
The feelings you bring
The thoughts you bring
You're powerful
You're a muse
You're everything
My fingers flow writing this poetry
As my fingers would play a beautiful melody
It's all the same
It's all under the umbrella of creativity
It's beautiful art
A philanthrope of color, feeling, and life
